

# BECOME A CITY AMBASSADOR!

**APPLY NOW**

## 01 Who they are?

City Ambassadors are students who help, free of charge, to update and maintain the city-region data (in the city region where they are Ambassadors for) to ensure the platform remains accurate and up-to-date. In the future, their picture and contact information will also be featured on the website (I intend to get and nominate 2-3 per city region).

## 02 What they get?

In return, City Ambassadors gain the nearly exclusive right to sell the platform in their city region (and of course, they can sell beyond that). This provides them with an income stream to fund their studies and gain business experience.

## 03 Referral bonus

If they share the platform with other students who register via their unique registration link, they can earn up to 10% higher sales margins for the next 12 months.

## 04 Sales margin cycle

Standard margin: 20% in the first year, 15% in the second, 10% in the third, and 5% in the fourth and fifth years – a full 5-year income cycle, which can be further increased by the referral bonus.
